

# Want to join a group search poster? Here's how!

The International Child Search Alliance (ICSA) can help! We're adoptees and parents working together to promote group search posters. Shared widely on Chinese social media, the posters raise awareness in China that international adoptees are searching and encourage birth parents to do a DNA test. Our current posters have tens of thousands of views on Chinese social media.

To join a poster for your province:

- Open a WeChat account (**REQUIRED**) - [wechat.com/en/](https://wechat.com/en/). This is your primary way to communicate with potential birth relatives. Check your account regularly and respond to people who contact you.
- Contact the poster administrator for your province by scanning their WeChat code below or emailing them.
- We strongly encourage everyone searching to get their DNA into GEDmatch, no matter which DNA test you did. Learn more about DNA testing on the ICSA website - [icsachina.org/adoptees](https://icsachina.org/adoptees).

While group posters are an easy way to start a search, we encourage you to learn about all aspects of searching. It's an emotional, time-consuming commitment, and a group poster is only a small part of the search.
